

The company that brought you
all ceramic now brings you...

Many choices from the one name you trust.

The tried-and-tested IPS Empress® leucite glass-ceramic from Ivoclar Vivadent provided key impetus to esthetic dentistry in the nineties. The launch of IPS e.max® marked another important milestone – and the company is just getting started with **all ceramic all options**.

As a dental manufacturer specializing in all-ceramic restorative materials, we are constantly moving in new directions to provide exciting, innovative products. We are committed to offering dental professionals worldwide the most advanced technologies, highest quality products and first-class education.

A host of CAD/CAM materials

Due to the takeover of Wieland Dental, Ivoclar Vivadent is now in a position to offer you an even wider array of CAD/CAM materials: full zirconia, cobalt-chromium, titanium, PMMA and other materials suitable for the fabrication of crowns, bridges, bar constructions, telescopes and individual implant abutments. The products are coordinated with each other and enable customized solutions to be achieved that meet all customer needs.

WIELAND
ZENOSTAR 
FULL CONTOUR ZIRCONIA

The reliable option for high strength

Zenostar is your brand choice for full contour zirconia restorations. The Zenostar pre-shaded, high translucency zirconia provides you with a strong and versatile restorative solution that meets the performance demands of even very challenging cases.

Zenostar covers an amazing variety of indications ranging from veneers to 14-unit bridges and thus sets the standard in the field of monolithic restorations. The Zenostar Art Modules consisting of stains, glaze and one-layer ceramics perfectly round off the Zenostar range.

WIELAND
ZENOTEC 
CAD/CAM

The versatile option for more flexibility

With the comprehensive range of Zenotec materials, a broad spectrum of indications can be covered. The milling blanks are available in different thicknesses and feature a diameter of 98.5 mm. The wide variety of Zenotec materials gives you remarkable flexibility in meeting your customers' needs:

- Zirconium oxide
- Metal (CoCr, titanium)
- Acrylic resin (PMMA, PU)
- Wax

A flexible range of processing solutions

In addition to CAD/CAM materials, a selection of scanners and milling options is available. It's the customers who decide whether to mill the restoration themselves using their own milling system or to outsource processing to one of the authorized milling partners of Ivoclar Vivadent. Either option leads to precision-milled, high-quality results.

ZENOTEC
CAD/CAM

The flexible scanner and software option

Wieland Dental offers a range of scanners from the market leading manufacturers 3Shape and Dental Wings. This gives you - the user - the opportunity to find a solution that is tailored to your needs and provides maximum precision and performance.

The flexible and easy-to-use software components allow optimum results to be achieved very quickly. Scanner and software from one supplier – for maximum digitization.

ZENOTEC
CAD/CAM

The high powered compact milling options

The **Zenotec mini**, which measures only 40 x 42 x 38 cm, has 4-axis geometry and features automatic tool change and measurements. It offers a cost-effective option for laboratories that wish to mill their restorations themselves.

The **Zenotec select** combines a compact CNC milling system featuring state-of-the-art 5-axis operation with the advantages of highly automated manufacturing. Thanks to the optional wet-grinding function*, the familiar range of materials can be extended to include IPS e.max CAD for Zenotec^{TM**}. Thus, Zenotec select offers maximum flexibility in terms of material selection.

AUTHORIZED MILLING PARTNERS of Ivoclar Vivadent

The professional outsource option

The Authorized Milling Partner program of Ivoclar Vivadent offers easy entry into the world of digital production. The global partner network affords high flexibility and access to the wide range of materials from Ivoclar Vivadent in an impressive quality.

It enables you to take advantage of high-precision restorations and benefit from highly esthetic restorations through the outsourcing channel.

* Expected to be available in the 4th quarter 2013

** Manufacturer: Wieland Dental, Germany

ivoclar
vivadent®
passion vision innovation

When you partner with Ivoclar Vivadent, you get the full service, support and reliability you expect and deserve. We are a business partner committed to help you every step of the way.

Service and Support

At Ivoclar Vivadent, we pride ourselves on delivering first-class customer service. Additionally, our people are highly trained and can respond to any of our customers' needs.
