'Fine' Blades and Handles

Swann-Morton surgical blades can be used in the surgery for the following:

- Minor surgery
- Oral surgery
- Implantology
- Labial frenum
- Incising abscesses
- Peridontal Surgery
- Raising Skin Flaps

Standard Surgical Blades and Handles - No 3 fitment

Surgical Blade No's 6, 9,10, 10A, 11 11P, E11, Sabre E11, 12, 12D, 13, 14, 15, 15A, 15C, 15T, Sabre D/15, 16, 40 fit No's 3, 3L,5, 7, B3 & B3L Handles.

Handles are available in nickel, with selected sizes available in stainless steel. All handles are individually wrapped. The easily gripped B3 is a light, adaptable stainless handle, supplied individually wrapped.

'Fine' Blades and Handles

The 'Fine' range has small, slim, precise blades in stainless steel for delicate operations. Six special handles, including the SF13 and SF23 with independently screwed top sections to facilitate blade-changing, take all blades, supplied in individual metal foil packets, available in dispenser units of 25. Handles are supplied individually in plastic wallets.

Blades in carbon steel (sterile/non-sterile) or stainless steel (sterile). Sterile blades individually packed in foil, non-sterile individually wrapped in protective paper in foil packets of 5 or in single-peel packets, all boxed in 100's.
